OUR VISION

Our Long-Term Guiding Purpose

To be a school that works with the **broader community** to raise **thinkers** and **leaders** who have confidence in their **Australian-Muslim** identity with a deeply rooted **motivation** to actively **do good** in the world.

OUR MISSION

The Primary Focus of Our Efforts

Sources of Inspiration

As we move from being a young Islamic school to a nurturing and supportive place of **holistic learning**, Irfan College continues to derive its inspiration from the many sources, both spiritual and academic.

The Islamic framework guides the College, and facilitates a culture of effective and passionate teaching built on positive relationships and sincere concern for each individual student.

The academic work of scholars, both past and present, guides and enriches the curriculum that will enable students to achieve personal bests in the twenty first century.

In this way, students are prepared both spiritually and academically to create **compassionate**, and **critical thinkers** who **understand their obligation** to **do good** in the world.

OUR VALUES

Our Guiding Principles

Linking our vision and mission

At Irfan College our values are closely linked to our mission and vision for the school. Our values of **personalised care** and **spiritual excellence** assert the importance we place on individualised learning and personal growth.

We encourage students to strive to achieve at all levels, both **academically** and **spiritually**, and create a respectful environment that allows them to realise personal bests.

Our values of **community and diversity** promote a deep understanding of service to the school and the wider community.

In this way, students recognise their **responsibility towards humanity**, and are encouraged to become compassionate, reflective and devoted thinkers.
